

SLIK-73

SIMFACT II

- ▣ universal counter with batching function
- ▣ 2 pulse counting inputs
- ▣ 1 programmable function input
- ▣ 1 counter reset input
- ▣ 1 relay or OC output (option)

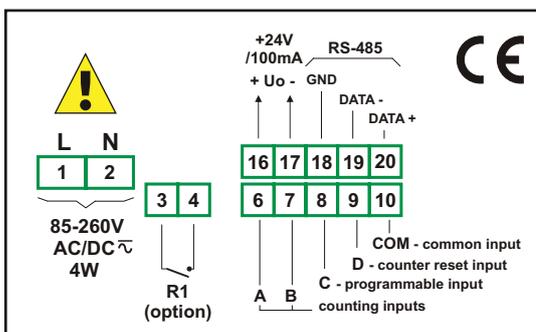

CE

The **SLIK-73** is a cross between the existing SLI-73 and SLK-73. The device has two independent counting inputs that can operate in various configurations. A programmable function input enables changing the operating mode of the counting inputs (up-down and down-up) or stopping the count. The **SLIK-73** counter features an independent reset input. It has 0 or 1 relay (or OC) output with programmable activation threshold, which can be used to control external equipment.

- digital, anti-disturbance filter,
- 4 counter reset sources,
- relay operation time programmable to 99 min.,
- programmable multiplier, divider and offset,
- programmable decimal point position,
- ACCESS option - easy threshold modification,
- RS-485 interface,
- available with AC and DC power supply versions.

Exemplary pin assignment

CE

Typical applications

1. Counting current amount of manufactured items plus control of the production line.

Technical data

Power supply: 19V ± 50V DC; 16V ± 35V AC or 85 ± 260V AC/DC, all separated
Power consumption: for 85 ± 260V AC/DC and 16V ± 35V AC power supply: max. 4,5 VA; 19V ± 50V DC power supply: max. 4,5 W

Display: LED, red, 6 x 9 mm high

Inputs: pulse, galvanically insulated

A and B inputs - counting (down-up and up-down or quadrature)

C input - programmable

D input - counter reset

COM - common

Input levels: low: 0 V ± 1 V

high: 10 V ± 30 V (max. 12 mA for 24V)

Max. input frequency: electronic: 10 kHz

contact: max. 90 Hz (adjustable filter)

Displayed values range: from -99999 to 999999

Output: 0 or 1 relay 1A/250V AC (cosφ=1) or the OC 30mA/30VDC/100mW

Transducer power supply output: 24V DC +5%, -10% / max. 100 mA, stabilized, not insulated from communication interface

Communication interface: RS-485, 8N1 and 8N2, 1200 bit/s ± 115200 bit/s, Modbus RTU, not galvanically insulated from transducer power supply output

Data memory: non-volatile memory, EEPROM type

Operating temperature: 0°C ± +50°C

Storage temperature: -10°C ± +70°C

Protection class: IP 65 (front), available additional frame IP 65 for panel cut-out sealing; IP 20 (case and connection clips)

Case: board

Case material: NORYL - GFN2S E1

Case dimensions: 72 x 36 x 97 mm

Panel cut-out dimensions: 66,5 x 32,5 mm

Installation depth: min. 102 mm

Board thickness: max. 5 mm

Ordering

SLIK-73-15XX-1-X-XX1

options:

00 : no options

01 : IP 65 frame

power supply:

3 : 24V AC/DC

4 : 85V - 260V AC/DC

type of outputs:

0 : no output

1 : REL

2 : OC

number of outputs:

0

1
